

A BUYING GUIDE

# tents & shelters

374 Lt Bourke Street, Melbourne 3000 | (03) 9600 0599 | [bogong@bogong.com.au](mailto:bogong@bogong.com.au) | [bogong.com.au](http://bogong.com.au)

Bogong has been Melbourne's leading store for lightweight technical tents for many years. We stock over 40 models of tent and shelter, and we have over 10 models pitched for you to look at and explore in our upstairs showroom. No other store carries such a wide range of quality brands and models. Come and talk to us!

## CHOOSING A LIGHTWEIGHT SHELTER

FEBRUARY 2020

Buying a tent isn't easy. A poor tent can sour your outdoor experiences. In extreme conditions, an insufficient shelter can be a threat to your safety. Having the right tent for your outdoor activities will help make every trip an enjoyable and safe one – so it pays to get it right! Finding the right combination of space, weight, durability, weatherproofness and price can be daunting. At Bogong we can help you choose the right tent.

### CHOICE OF BRANDS

At Bogong we offer an outstanding choice of the world's leading brands. Each brand has different strengths: some will be more suited to your needs than others. Beware of 'one brand' stores. Will they be offering independent advice as to the best tent for your needs? As a truly independent store we have carefully selected the best brands for all users.

### TENT DISPLAY SHOWROOM

Did you know that Bogong has more high quality lightweight tents on display than any other store in Melbourne? Brochures can give only limited information. You need to see a tent pitched to appreciate its features.

### EXPERIENCED STAFF

Bogong staff are hand-picked for their wide experience in all outdoor situations. We can advise you on your tent requirements for any situation whether it be for Patagonia or the Grampians! Chances are, we have a staff member who has been there and can give you practical advice.

### TO HELP YOU CHOOSE

**In what weather do you plan to use your tent?** If you will encounter cold conditions – snow, high winds, heavy rain – you will need a tent to cope. The more extreme the weather, the stronger the tent will need to be. This can mean more weight and cost. Smaller tents catch less wind and are more stable than larger models of the same design configuration. On the other hand, excellent ventilation is a must if you're trekking in the heat.

**How much can you carry?** No matter how weatherproof a tent may be, if it is too heavy for you, it is impractical. Manufacturers of quality light tents often use exotic materials to achieve excellent weather protection, but these can be expensive.

**How much room do you need?** Do you throw in a spare kitchen sink? If you like to bring all your toys with you on your outdoor expeditions, you will need to consider the vestibule and interior spaces of your tent.

### TENT WEIGHTS

There is much misinformation about tent weights – beware of minimum tent weights quoted by brands. Often, these figures are incorrect or render the tent unusable. At Bogong we have weighed our tents ourselves, to enable you to compare across all models and brands. We define a tent minimum weight as the fly, inner, poles, tent bag, pole bag, peg bag and six pegs – the minimum for camping in good conditions.

# MONT MOONDANCE SERIES

## THE ULTIMATE IN MINIMALIST FAST-AND-LIGHT TENTS

Australian designed, for Australian conditions; the Mont Moondance I is ultralight without compromising the integrity of the materials. A bombproof 10,000mm floor ensures you're protected in the wettest conditions, while the mesh inner provides plenty of ventilation to reduce condensation.

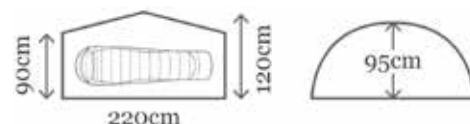

The Moondance series features an innovative wishbone hub pole design that gives more space inside the tent.

### FEATURES

- 3 season
- 2 DAC Featherlite™ poles with wishbone hub design with extra cross pole creating greater internal space.
- Heavy-duty 10,000mm+ PU bucket floor
- Partial no-see-um mesh inner tent
- Reflective storm guy cords
- Optional Moondance Footprints (various prices)

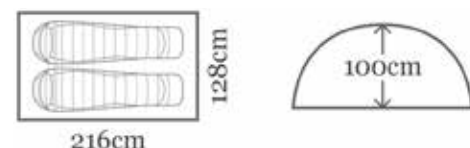

#### MOONDANCE I \$649.95

- 1.54kg
- Persons: 1
- Doors: 1
- Dimensions (L x W x H): 220 x 90-120 x 95cm

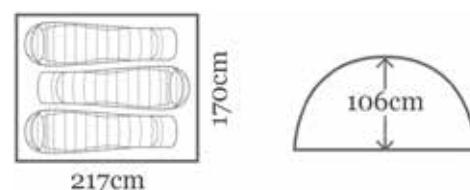

#### MOONDANCE II \$799.95 / \$849.95

- Half-Mesh Inner: 1.87kg  
Full Nylon Inner: 1.96kg
- Persons: 2
- Doors: 2
- Dimensions (L x W x H): 216 x 128 x 100cm
- Colours: Bracken or Lemongrass

#### MOONDANCE EX \$849.95 / \$899.95

- Half-Mesh Inner: 2.34kg  
Full Nylon Inner: 2.38kg
- Persons: 2-3
- Doors: 2
- Dimensions (L x W x H): 217 x 170 x 106cm

The EX has plenty of room for three, but at only 2.4 kilos, you could use it as a luxury two-person tent.

### FOOTPRINTS

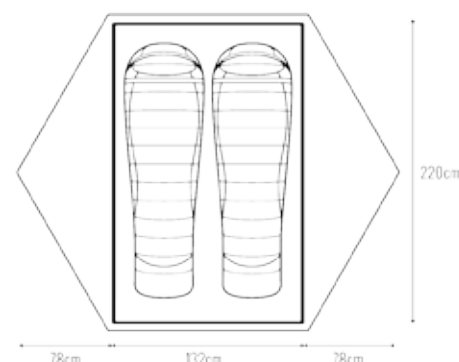

MOONDANCE I FOOTPRINT	\$79.95	170g
MOONDANCE II FOOTPRINT	\$89.95	220g
MOONDANCE EX FOOTPRINT	\$89.95	310g

MOONDANCE EX 3D FOOTPRINT	\$99.95	440g

## MONT STARGAZER \$589.95

VERSATILE TENT SUITABLE FOR YEAR-ROUND BUSHWALKING

### FEATURES

- 2.65kg
- Persons: 2
- Doors: 2
- Vestibules: 2
- Inner dimensions (L x W x H): 220 x 132 x 112cm
- Fly: 75-denier ripstop polyester
- Inner: Full ripstop nylon & mesh
- Floor: 10,000mm+ 70-denier PU laminated nylon
- Poles: 3 x 9.5mm DAC Pressfit
- Pegs: 10 aluminium hook pegs

A spacious tent with 3-4 season protection, high-quality components and quick, simple set-up.

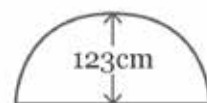

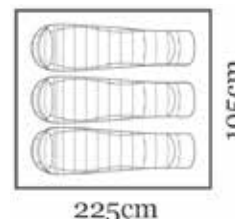

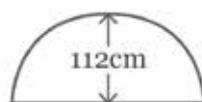

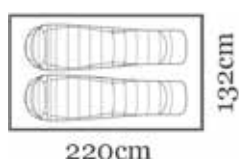

# MONT EDDIE SERIES

INSTITUTIONAL-USE TENT, DESIGNED FOR OUTDOOR EDUCATION GROUPS

Designed for the rigours of outdoors education groups, Mont Eddie tents are ready for rough-and-tumble in 3-4 season conditions.

Eddie tents are made with heavy-duty zips, extra-strong poles and a 100D nylon tub floor with 5000mm waterproof PU coating for maximum lifespan regardless of who is inside; tribes of kids, outdoor education groups or families. Plus, they're quick to set up.

## FEATURES

- Fly: 3000mm 75D ripstop polyester
- Inner: 70D ripstop nylon and mesh
- Tub floor: 5000mm 100D PU coated nylon
- Zips: Heavy-duty #8 YKK zips
- Poles: 3 x 9.5mm DAC Pressfit poles with storage bag
- Pegs: 10 aluminium hook pegs with storage bag
- Guy cords: 1.5mm reflective
- Repair kit: Emergency pole repair sleeve, 1 tube seam sealer and applicator brush, repair patches
- Tent storage sack
- Fly storage sack

## EDDIE 2 \$529.95

2.71kg

- 2 person (or up to 3 kids), 3-4 season
- 2 doors, 2 vestibules
- 220 x 132 x 112 (L x W x H)

## EDDIE 3 \$629.95

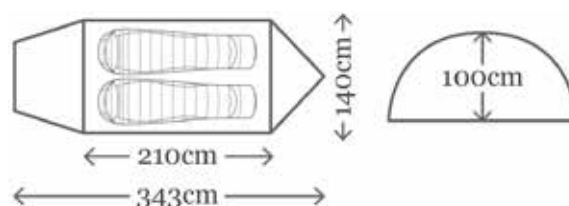

3.35kg

- 3 person (or up to 4 kids), 3-4 season
- 2 doors, 2 vestibules
- 225 x 195 x 123cm (L x W x H)

# MONT EPOCH \$1149.95

## VERY STABLE, ROOMY ALPINE TENT

The Epoch is a true 4-season, free-standing alpine tent, with a unique 6-pole design providing enormous stability in high winds. A generous 2-person, dual entrance, dual vestibule design and features large 3-way roof vents for increased comfort over all conditions. Constructed with durability in mind, the PU laminated floor is rated at over 10,000mm while the PU-coated, seam-sealed fly is made from highly tear-resistant 40D sil nylon.

## FEATURES

- 3.63kg
- 2 people, 2 doors, 4 season alpine
- 2 vestibules with large main front vestibule and rear vestibule
- Inner dimensions (L x W x H): 218 x 145 x 103cm
- Lightweight, strong 40D PU coated sil nylon fly with 2000mm coating
- Strong, highly waterproof 70D PU laminated floor (10,000mm)

Exped is a Swiss brand known for its ingenious simplicity: Multi-use, lightweight, functional – not faddish. Exped integrates superb craftsmanship with superior materials and emphasis on durability.

### FAST AND EASY SET-UP

- 1/ Slide poles into sleeves.
  - 2/ Secure poles in their pockets.
  - 3/ Tension. And that's it!
- Continuous sleeves allow poles to pass through intersections easily.
  - Canopies are factory mounted, and just a few stakes and guy lines are needed to pitch any Exped tent.
  - Colour-coded poles and sleeves eliminate guesswork.
  - Rounded doors are easy to operate one-handed.

### MULTI-FUNCTIONAL AND SIMPLE USE

- Inners canopies can remain attached to the fly.
- The fly can be used alone – for storage or as a basic shelter.
- In clear weather the inner canopy can be used alone, with or without a tarp cover. (Pole pockets at the corners enable this configuration.)

Adjustable floor loops of Dyneema cord for easy placement of tent pegs. They put a 20cm radius at your disposal in which to find the ideal spot to sink the peg.

Excellent ventilation: even in rainy conditions, condensation is kept to a minimum by large opposed vents.

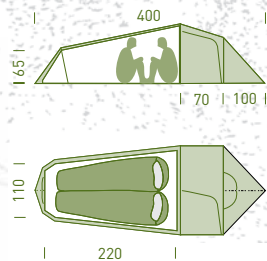

Exped Ingenuity. The spacious interior and generous vestibule of the Venus III DLX Plus, fits 2-3 people very comfortably.

Lightweight Gear Loft. Attaches to the canopy roof with adjustable elastic straps. Ideal for storage.

# BIVVY BAGS, SLEEPING BAG COVERS AND HAMMOCKS

There are some scenarios in which you might need a lightweight alternative to a tent, such as a bivvy bag, sleeping bag cover and hammock. Perhaps you're hiking hut-to-hut and only an emergency shelter. Or, you're only going to be using it in the dry season in central or northern Australia. Or, perhaps you're a hiker for whom every gram counts. Whatever your needs, discuss your lightweight shelter options with our staff.
